_____

Dear Mr./Ms.

In response to your job posting, I would like to apply for the position of developer. I am certain that I have the necessary qualifications and have provided the following information for your consideration.

As stated on my CV, I have a BSc in electrical and computer engineering (computer engineering) with a GPA of 3.46 and a thesis grade of A.

I work ethically and successfully with people at all levels of the company depending on their interests. Furthermore, I am self-motivated, conscientious, flexible, and proactive to the changing global dynamics, which makes me a strong contender for the post. I will be a valuable asset to your firm and will take advantage of this opportunity to expand my knowledge and skills.

I hope that after reviewing my CV, you will be convinced of my ability to perform successfully and make a genuine contribution to your company's interests. Yours sincerely Tesfawtsion Shimelis .

TO WHOM IT MAY CONCERN

Dear sir/madam,

I am writing this letter to acknowledge the academic potential and social conduct of my former student **Mr. Tesfawtsion Shimelis Endale** when I was conducting the course and to recommend the importance of his inspiring vision for your company.

I have known him for more than four years and I have given the course **introduction to computing (ECEg-2033)**, **Data Structure and Algorithm (ECEg-4171)** moreover I advice him during **B.Sc. project (ECEg –5371)**. I have seen his academic potential and social interaction during my advising session I rate him as a highly capable student with all necessary attributes to make him qualify for higher studies in Electrical and computer engineering. He is organized in his goal setting, yet he has learned to keep his options open for the future. He is intellectual and well-disciplined in his behavior & academics.

This and my long time student – teacher intimacy with my former student **Mr. Tesfawtsion Shimelis Endale** enhanced me to feel proud when I am writing this letter of recommendation which acknowledges him ahead of your respected company. I feel confidentiality to retain his potential to serve your company more than your expectation. I wish him all the best for his future endeavor.

With regards
